Strategic Planning.

Maidstone Borough Council.

Maidstone.

Ref:- Policy ~~LA~~ LPRSP5(B) Invicta Barracks.
Strategic Development Location.

Dear Sirs

With reference to the above proposed plans I should like to submit a formal objection to them.

Undoubtedly it will make a considerably big change to the whole area surrounding the parkland. In particular to the adjacent homes on either side of the Royal Engineers Road. The increased level of Traffic Noise, together with more pollution, would be a major concern.

During peak times the roads could be blocked in all directions.

The site, is a very special parkland. because of its international significance. A number of trees have conservation orders upon them, and wildlife and woodlands should be preserved.

This seems to be the only proper green space for some distance; to be built upon would be a great pity.

Yours Sincerely,

Amil Parca.
